SUPPORT THAT DELIVERS AN ADVANTAGE

Stacking the decks with aftermarket
services for marine defense

FAIRBANKS MORSE **DEFENSE** **SERVICES**

Turnkey Service & Support

We provide best-in-class support for mission critical equipment. Our support extends from installation through lifecycle maintenance, including rapid mobilization and local shop support. Our OEM certified technicians provide the attention and expertise to take care of every project from beginning to end.

Engineering Services

Through our unique position as the OEM and with decades of engineering and fleet wide knowledge, we are able to rapidly provide the highest quality lifecycle engineering solutions with access to all OEM technical knowledge and drawings.

World Class Training

We offer over 25 courses covering both operator and maintainer training that incorporate competence assessments. Our courses are available in-person at our two training facilities or virtually using our FM Onboard mixed reality software.

Unit Exchange Program

Our Unit Exchange Program increases expediency and reduces risk by providing readily available components (i.e. cylinder heads) for multiple equipment types overhauled by OEM technicians and with a 12 month warranty. We also offer a customized program that delivers parts at time of service for major and minor equipment overhauls.

OEM Parts

With our strategically located service centers, we are committed to supplying genuine OEM parts to meet your operational needs. Through collaborative planning, we proactively identify and create solutions to ensure your operations are not disrupted.

Innovative Flushing Solutions

With our highly sophisticated equipment and systems, we offer flushing and filtration solutions for diesel engines, fuel & lube oil systems, cooling water systems, hydraulic systems, holding and transfer systems.

Upgrades

By leveraging the latest technology, we offer a wide variety of upgrade solutions for all of our products to maximize the life and performance of your investment. We offer obsolescence management, performance management, environmental and reliability upgrades.

Third Party Servicing

Through strategic collaboration, we are able to leverage our OEM expertise across a broader range of equipment. We are the exclusive service provider for our partners and provide full service OEM maintenance and repairs for all the equipment we support all from a single, trusted and local source."

STRATEGIC COLLABORATIONS
