VESTDAVIT

Vestdavit Production Health and Safety Policy

(based on the requirements of the international standard ISO 45001:2018)

The primary goal of Vestdavit Production is to apply effective health and safety (HS) systems, standards and procedures adequate to the risk associated with the scope of production required to produce equipment for the shipbuilding and offshore industries.

The company implements health and safety management system based on the requirements of the international standard ISO 45001:2018. The organization's goal is to create and maintain a healthy and safe work environment and minimize risks for all interested parties who may be affected by the company's operations.

We meet the requirements set by the ISO 45001:2018 standard by:

- creating an environment in which risks to health and safety are controlled to prevent injuries and diseases,
- compliance with all health and safety requirements established by the management board and supervisory authorities,
- constant information to all interested parties about the health and safety rules applicable in our company,
- continuous improvement of awareness and qualifications regarding health and safety among Vestdavit Production staff.

The management of Vestdavit Production commits to:

- ensuring safe and hygienic working conditions to prevent work-related injuries and health ailments,
- meeting legal and other requirements,
- eliminating hazards and reducing health and safety risks,
- continuous improvement of the health and safety management system,
- consultation and participation of employees, through the Health and Safety Committee established for these purposes

Improvements and investments in the infrastructure of our company additionally contribute to minimizing the risk to health and safety. The health and safety management policy was communicated to Vestdavit Production employees as well as to all interested parties.
