VESTDAVIT

Quality Policy
Vestdavit Production Spółka z o.o.

We are a company specializing in the production of boat davit and boat transport systems as well as products and structures for the shipbuilding and offshore.

Our employees are most important resource. Everyone participates in the preparation of products in accordance with schedule, budget and quality.

The quality system is based on the principle of employees responsibility for the quality of their work, own safety and others - based on HS regulations, working environment in the company and influence on the natural environment.

VP employees are constantly working to meet the tailor-made requirements of our clients.

The quality system is constantly improved and developed, and quality policy is the basis for establishing the quality goals for the organization.
