VESTDAVIT

Vestdavit Production Spółka z o.o. Environmental Policy

(based on the requirements of the international standard ISO 14001:2015))

The primary goal of Vestdavit Production, as a company specializing in the production of equipment for the shipbuilding and offshore industries, is to conduct production in a way that ensures the lowest possible impact on the natural environment and at the same time guarantees that the requirements of customers and all interested parties are met.

Taking into account the continuous improvements introduced in the company and the need to maintain appropriate quality and credibility among customers and the local community, Vestdavit Production has developed and implemented an environmental management system based on the requirements of the international standard ISO 14001:2015.

We meet the requirements set by the ISO 14001:2015 standard by:

- conduct in accordance with environmental protection law and legal standards that apply to our plant, relevant to the context of the organization and identified environmental aspects,
- reducing the risk of environmental failures,
- segregating waste in accordance with applicable regulations,
- reducing emissions of pollutants into the environment from technological processes,
- proper handling of hazardous materials,
- improving staff awareness in accordance with the growing requirements of our recipients and interested parties.

The management of Vestdavit Production commits to:

- environmental protection, including pollution prevention,
- meeting compliance obligations,
- continuous improvement of the environmental management system in order to secure the environmental effects of operations

Continuous improvements and investments in the infrastructure of our company additionally contribute to minimizing the impact on the natural environment.

The environmental management policy was communicated to Vestdavit Production employees as well as to all interested parties.

Based on the above policy, which was established based on strategic direction of the organization and its context, detailed environmental goals were adopted. The implementation of detailed environmental goals is ensured by the company's management.
