

DAVIT TECHNOLOGY & CAPABILITIES

Now part of Fairbanks Morse Defense, Welin Lambie has a distinguished history in the design, manufacture and maintenance support of lifesaving davits and winches stretching back over 120 years.

Our team of experienced engineers are proud to be supporting the 21st century USN (CVN 78, LHD, LCS programs), USCG (Endurance Cutter, National Security Cutter Programs) and various commercial operations like Washington State Ferries.

Capabilities

Welin Lambie can support every stage of turnkey projects for SOLAS rated lifeboat davits, rescue-boat davits and life raft davits including:

- Davit and winch design
- Product manufacturing
- Installation and commissioning
- Supply of spare parts
- On-site maintenance services

We are qualified on all types of SOLAS rated launching and recovery davits: from traditional gravity systems, to hydraulic systems, to the latest all-electric powered systems. We can support all davit configurations including slewing davits, pivoting davits, fixed gantry davits, overhead rail davits and even special bespoke designs.

Qualifications

To ensure a quality service to our customers, Welin Lambie's QA systems are:

- ISO 9001 certified
- All products are ABS Type Certified
- Aftermarket services comply to SOLAS MSC 402(96) for the maintenance and repair of lifeboat/rescue boat launching appliances

Field Services

All Welin Lambie service technicians are fully qualified to provide routine, annual and five year SOLAS davit inspection, service, and repair work in accordance with USCG, ABS and MSC 402(96) regulations.

Our field service teams are strategically located around the US, and internationally, to fully support our clients.

STACKING THE DECKS

with best-in-class marine technologies and service solutions.

We deliver an advantage to the U.S. fleet with a growing array of best-in-class marine technologies, OEM parts, technical support, and turnkey services – all from a single, trusted source.
